Ilmahaagu Wax Ma Maqlaa?

Making healthcare work for you.

Making healthcare work for you.

Waa daruuri in la ogaado in ilmahaagu wax maqlo

Bilaha iyo sanadada hore ee ilmaha noloshiisu waxa ay saldhig u yihiin barashada afka: Dhego-beel ku wuxuu ka mid yahay sababaha keena in aan ilmuhu afka hore u baran. Afka oo aan hore loo baranini waxay keeni kartaa dabeecad iyo niyad xumo marka dambe-na dhibaatooyin xagga wax barashada ah.

Sanad walba Ontario, ilaa 1000-kiiba afar ilmo/cunug ayaa ku dhasa dhego la'aan ama aan si fiican wax u maqal. Caruurta barnaamijka Ontario Infant Hearing ayaa hore loogu ogaan karaa laguna siinayaa caawimada ay u baahan yihiin si ay afka u bartaan. Badi caruurta dhegaha-la iyo kuwa aan sida fiican wax u maqal ee la ogaado wax maqal la'aantooda mar hore, lana siiyo caawimada ay u baahan yihiin, waxa ay af-barashada kala mid yihiin caruurta wax caadi u maqasha.

Waxa diyaar la guula yahay in dhegaha ilmahaaga la tijaabiyo

Dhamaan caruurta ku dhalata Ontario dhegahooda waxa lagu tijaabin karaa dhakhtarka marka ay dhashaan ama degaankooda (community). Wax lacag ah ma aha tijaabadu. Waxa weeye wax fudud, dhakso ah, laguna kalsoon yahay, ilmahaagana wax dhibaato ah aan u keenayn.

Qalabka loo isticmaalayo tijaabadu waxa weeye sameecad yar oo la geliyo ilmaha dhegtiisa. Sanqadh yar ayaa lagu siraadayaa sameecada waxaana la qiyaasayaa dareenka ay bixiso dhegtu oo la diiwaan gelinayaa.

Laga yaabaa in ilmahaagu inta tijaabadu socoto aanu dareemin oo iska hurdo, jawaabtana waxaad helayasaa isla markaa.

Haddii aan ilmahaaga dhashay aan dhegihiisa la baadhin ka hor inta aydaan dhakhtarka ka bixin, la xidhiidh barnaamijka Infant Hearing ee kuugu dhow ood ka helayso warqadan xaggeeda dambe.

Caruurta qaar ka mid ahna dhegahooda waa la baadhaa

Inkasta oo caruur badani ku baasto/guulaysato tijaabada maqalka, caruurta qaar ka mid ah ayaa hela jawaab ah “gudbi” oo markaa u baahan doona in dhegahooda la baadho. Baadhista wax maqalka waxaa sameeya audiologis(dhakhtarka maqalka) kaas oo khibrad u leh baadhista maqalka caruurta dhalatay. Barnaamijka Infant Hearing ee deegaankaaga ayaa kuu samayn doona balan.

Caruur badan oo hesha jawaab “gudbis” ayaa wax maqal-koodu caadi yahay. Wax awwad dalooka dhegta ama dhaq-dhaqaaq marka ay tijaabadu socoto ayaa badiyaa sababa jawaabta ah “gudbis”. Haseyeeshee, haddii ilmahaagu aanu wax si fiican u maqal, dhakhtarka maqalka ayaa kuu tilmaamaya meelaha aad adiga iyo ilmahaagu ka helaysaan caawimada.
